5. **Health risks associated with the use of illegal drugs and alcohol.** Although initial drug use might be voluntary, drugs of abuse have been shown to alter gene expression and brain circuitry, which in turn affect human behavior. Once addiction develops, these brain changes interfere with an individual's ability to make voluntary decisions, leading to compulsive drug craving, seeking, and use. Additionally, the impact of addiction can be far-reaching. Cardiovascular disease, stroke, cancer, HIV/AIDS, hepatitis, and lung disease can all be affected by drug abuse. Some of these effects occur when drugs are used at high doses or after prolonged use, however, some may occur after just one use. See National Institute on Drug Abuse.

6. **Legal Sanctions.** In addition to penalties, up to and including expulsion from AMBI, a student who violates any of the following alcohol and/or drug laws will be reported to the appropriate law enforcement agency and will be subject to prosecution in accordance with the law. Legal sanctions for a violation of local, state, and/or federal law may include, but not be limited to fines, probation, jail, or prison sentences.

7. **Biennial Review.** AMBI will conduct a biennial review of its program to determine its effectiveness and implement changes to the program if they are needed and ensure that any disciplinary sanctions are consistently enforced.
